

Daisy Voda Fusion

All information correct as of 8 Feb 2024.

What is Daisy Fusion?

Available exclusively on the Vodafone network, Daisy Voda Fusion is built like a single user tariff giving all users access to Unlimited calls, texts and allowance of data. However, unlike standard single user tariffs, Daisy Voda Fusion will also give users access to shared data. Allowances are applied and then shared amongst your mobile fleet. It's cost-effective as well, so no matter what bolt-ons you require you'll pay a flat fee per user per month, plus whatever bolt-ons the business requires. Daisy Voda Fusion also offers optional single user bolt-ons for data top-ups, international minutes, international SMS and roaming data bolt-ons.

Unlimited usage is subject to an artificially inflated traffic fair usage policy. Data roaming on Unlimited plans is capped at 25GB per billing month in Travel Free and Travel Plus destinations. If you breach this limit while abroad, you will be charged an additional £2.05 per GB for data usage until your monthly allowance renews. Inclusive standard allowances are available in the UK and selected roaming destinations in line with qualifying tariffs and daily roaming services.
